

Digital TV Antenna UHF 9 Element 'F' Balun 4G/5G 02MM-MDU09

Its compact, robust design immediately distinguishes the 02MM-MDU09 from other antennas. As a result, this unit does not waste space and blends beautifully into its environment. In terms of features, its single solid directors offer gain for the uniquely Matchmaster "Tri-POL" balun design. In addition, 4G/5G LTE protection is standard, as is the UV-resistant black plastic.
