WHY USE A DAMPCHASER ®

The Dampchaser® is the perfect low-cost solution for protecting your clothes shoes and possessions from the damaging effects of mould, mildew and corrosion. Just fitit and forget it and leave the Dampchaser® to do its work.It comes complete with simple mounting hardware, a 1.8-meter power cord and moulded plug. The Dampchaser® is mounted horizontally in the lower half of the cupboard, creating a gentle background warmth that circulates throughout. It reduces allergens and helps eliminate damp and musty odours. Ideal in wardrobes or for creating an airing cupboard. The Dampchaser® has a multitude of uses around the home and work place and can be used in boats, basements, caravans, pianos, electrical switchboards, tool and sporting equipment lockers etc. The 60Watt & 100Watt models have an automatic resetting over temperature safety switch.

Dampchaser® 17Watt

CHOOSING THE CORRECT MODEL

The 100 Watt model is ideal for creating an airing cupboard or for larger double wardrobes of approximately 5 to 6 cubic meters. Installed horizontally to a wall (Mounting hardware included)

The 60 Watt model is ideal for single or double wardrobes with a cubic capacity of approximately 3 to 4 cubic meters. (Mounting hardware included)

The 17 Watt model is ideal in small cupboards or pianos up to approximately 2 cubic meters. Installed horizontally to a wall (Mounting hardware included)

Please note that the model required is a guide only and may vary due to climatic and environmental conditions as well as the construction methods of the storage areas in question.
