WATCHMAN

MINI 10 YEAR INTERCONNECTED

SMOKE ALARM

MODEL NUMBER:

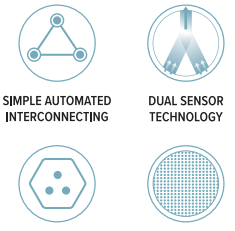

AJ-770SI4

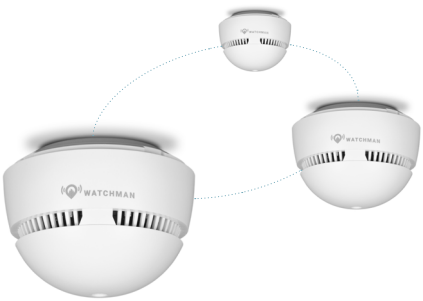

The Watchman Mini 10 Year Wireless Interconnected Smoke Alarm can connect up to 22 alarms which provides greater protection and early detection throughout the home. When one alarm activates, all other connected alarms will activate.

The alarm contains cutting-edge, dual-sensor technology. Dual-sensor allows the alarm to make more accurate readings inside the sensing chamber, and along with the additional insect mesh, helps reduce the potential of nuisance alarms caused from environmental factors. The alarm also contains a quick and automated pairing process and connects with the Watchman Wall Controller for simpler functionality. Smoke alarms are designed to be installed in bedrooms, dining rooms, living areas and hallways.

PRODUCT & TECHNICAL SPECIFICATIONS:

Product Size:	78mm x 57mm
Gross Weight:	0.11kg
Sound:	85dB at 3 meters
Humidity:	95% RH
Standby Current:	< 10uA
Alarm Current:	< 60mA
Optimal Temperature Range:	-10 to +50
RF Frequency:	433MHz

FEATURES:

- Built-in 10 Year 3v lithium battery
- Automated RF pairing process
- Dual-Sensor technology
- 9 minute hush
- Wall Controller available
- Easy to install
- 10 year warranty
- EN14604:2005 certified
- NZ Building Code, NZS4514:2021 and RTA compliant
