Convenience, Control and Comfort

Toshiba Light Commercial Heat Pump WIFI adaptor

How does it work?

Once IntesisHome® adaptor has been installed and connected, your Heat Pump can be controlled from a web browser, iPhone, iPad, or Android device. WIFI adaptor is connected through your local Wi-Fi network and a server in the cloud manages the whole process.

Features:

- * Compatible with all Toshiba Light Commercial Range
- * Control and Monitoring: On/Off, Mode, Set Temp, Room Temp, Fan Speed, Vane position
- * Heat Pump error and description notification
- * External power supply not required
- * The device can be hidden inside the Heat Pump unit
- * Electrical consumption and other extra functionalities available
- * Full bi-directional communication with the Heat Pump
- * Automatic firmware update

Light Commercial WIFI (TO-RC-WIFI-1) adaptor

Model: TO-RC-WIFI-1
