ISOLATORS FOR ELECTRIC VEHICLE (EV) CHARGERS

Kraus & Naimer's new EV Isolator meets all the requirements;
Looks great at home or work and fits into a standard flush box.

We've got the regulations covered:

- ✓ Double Pole - switching both Phase and Neutral
- ✓ Rated 32A (7.4kW)
- ✓ Lockable in OFF which is clearly labelled
- ✓ Withstands the specified impulse voltages, shock and vibration tests
- ✓ Cannot be turned to Off and a padlock fitted if a contact is welded

Order Code: **KNEV232**

Features: Double Pole

32 Amps (7.4kW)

(Larger sizes available on request)

Terminal size: 2 x 6mm² cables

Includes 1 x Earth connector

600 Series Plate

(For surface mounting use: PDL89DI Mounting Block)

Refer to Worksafe / Energy Safety - Electric vehicle charging safety guidelines, AS/NZS 3000:2007 & 2018 (wiring rules) and AS/NZS 60947-3 (LV Switchgear & Control Gear) for complete details and information.
