

# ET450AU ADVANCED CIRCUIT TRACER KIT

Easily trace energized and non-energized  
breakers, fuses, and wires

## TRACE WIRES

- Behind Dry Wall
- Above Ceilings
- Under the Floor
- In Concrete
- Underground
- In PVC Pipes

CAT III  
600V

**KLEIN  
TOOLS**

# ET450AU ADVANCED CIRCUIT TRACER

- The Advanced Circuit Tracer Kit provides reliable tracing of energized or non-energized breakers, fuses, and wires
- Easily adjust receiver sensitivity level to detect the transmitted signal through drywall, cement block, and underground
- Versatile applications include tracing wires, conduit or pipes, or a single wire in a bundle
- Audible beep and visual indicators on receiver denotes signal strength
- Receiver features a flashlight for illumination in low-light areas and NCV function to test if wires are energized
- Transmitter has AC/DC external voltage indicators of 12V, 48V, 120V, 240V, and 480V

| Cat. No. | Standard     | Drop Protection | Ingress Protection | Included                                                                                                                                                           | Batteries                               |
