Low profile side entry plug tops –
includes Ezy-pull option

Key benefits

- ✓ Slimline, low profile design with angled entry.
- ✓ Comprehensive range, from 10 to 32 amps.
- ✓ 10 amp range includes round pin models for dedicated appliances.
- ✓ Ezy-pull bracket option – ideal for people with arthritis or other disabilities.

Cat 106/1A
Ezy-pull plug

FEATURE

- Slimline, wall hugging design with minimum protrusion from powerpoints and 45 degrees cord entry so the cable angles away.

- Comprehensive range, comprising 10, 15, 20, 25 and 32 amp models.

- Includes round pin models in 10 amp range.

- Includes high amp models which suit such appliances as wall ovens and cooktops.

- Moulded finger-grip ridge.

- Ezy-pull bracket option. Cat 106/1A is a 10A plug top packaged with the Ezy-pull bracket set.

- Accepts up to 6mm dia 3 core flexible lead.

- A special clamp is provided for figure 8 wiring.

- Screwed clamp terminals.

- Cover slides into base.

- One screw anchoring.

- OEM components available.

ADVANTAGE/BENEFIT

Because there is minimum plug protrusion, and the cable does not protrude outwards, appliances and furniture can be placed closer to walls or skirting boards. Bench space and floor space is maximised. And there's less likelihood of tangled cords.

The most popular types.

Enables appliances to be dedicated to powerpoints with the same configurations.

Enables installation of such appliances to be delayed until a very late stage in construction, virtually as the owners are ready to move in. This reduces the likelihood of them being stolen from an unoccupied building (which is a problem with wired-in appliances, which tend to be installed well prior to occupancy).

Makes plugs easier to insert and remove.

Makes plugs easier to grasp, insert & remove. Ideal for people with arthritis or other disabilities.

Suits the most used cord types.

Clamps figure 8 wiring tightly in place.

Easy to wire.

Easy to assemble. Provides a firm fix.

Easy to assemble

Enables original equipment manufacturers to adapt plugs to suit their own requirements.
