Contact Block Snap Action 1NO 1NC

- 800B 16 mm operators are perfect for your light industrial and instrumentation application needs with their highly configurable and flexible design.
- Small in size, these operators are excellent for applications with limited panel space or a small footprint.
- Made of corrosion-proof plastic that is suitable for harsh environments and ensures long push button life. Consistent coloring and illumination makes these easy to identify for the life of the operator.

| SPECIFICATIONS                             |                                                                     |
|--------------------------------------------|---------------------------------------------------------------------|
| Component Type Pushbutton and Pilot Lights | Contact Block                                                       |
| RoHS Approved                              | Yes                                                                 |
| CE Marked                                  | Yes                                                                 |
| Operating Temperature, Max                 | -25 °C max                                                          |
| Operating Temperature, Min                 | 55 °C min                                                           |
| Storage Temperature, Max                   | -40 °C max                                                          |
| Storage Temperature, Min                   | 70 °C min                                                           |
| Relative humidity, min                     | 50 %RH                                                              |
| Relative Humidity, Max                     | 95 %RH                                                              |
| IP Rating                                  | IP66                                                                |
| Shock Acceleration (Max.)                  | 100 g                                                               |
| Shock Duration (Max.)                      | 11 ms                                                               |
| Vibration Acceleration (Max.)              | 10 g                                                                |
| Vibration Displacement (Peak to Peak Max.) | 1.52 mm                                                             |
| Vibration Frequency, Operational (Max.)    | 2000 Hz                                                             |
| Vibration Duration (Max.)                  | 360 min                                                             |
