Data Sheet

Product Information

Code: HL7054

Description: 240V 2X3W ADJUSTABLE RAW CO

Suitability: Outdoor

Material / colour: Raw copper

Operating voltage: 240V

Lamp: LED GU3W

IP Rating: IP54

Fitting size: 63mm D, 90mm H Base: 110mm dia

Directional spot with adjustable swivel. Wall or ceiling mount. Raw copper is the most durable material for use outside and will darken to the preferred patina effect over time.

INSTALLATION NOTES

When fixing outdoor fittings to a wall a bead of silicone is required around the base to maintain the IP rating of the product. This also applies to the holes around the fixing screws. All silicone and rubber washers and O'rings supplied with the fittings must be in place around the base and fixing screws when installing the product. If missing please contact your supplier for replacements prior to installing the product. Failure to install outdoor fittings correctly will void any warranty.

COPPER AND BRASS OUTDOOR LIGHT FITTINGS

Copper and brass are natural high quality products that offer good resistance to harsh marine atmospheres also saltwater, alkalis and solvents. The products do darken to the preferred patina effect over a period of time.

The product itself requires no maintenance but the glass lens should be cleaned as required and any stainless steel screws or fixings cleaned as above.

When fixing outdoor fittings to a wall a bead of silicone is required around the base to maintain the IP rating of the product.
