

HWM SPECS SHEET

The **HWM** is a manual thermostat designed for simple, everyday operation. Its clean, uncluttered display allows you to adjust the desired temperature with ease, making it an ideal choice for areas where you want your floor heating operating continuously without the need for timers or programmed schedules. With its sleek, elegant and unobtrusive design, the **HWM** blends seamlessly into any modern home while remaining incredibly easy to use.

If you would prefer greater control over your heating, the WiFi version includes full programmable scheduling, allowing you to set different temperatures and operating times throughout the day. It can also be controlled remotely, giving you the flexibility to manage your heating from anywhere.

*It is available in **Black** and **White**.*

HWM TECHNICAL DATA

Voltage: 240V~ 50Hz
Standby Power: 1W
Relay: Max. 16A(Resistive load)
Terminal Wire Size: Max. 2.5mm²
Floor Sensor Type: 10k Ω (25°C), B25/50=3380 (default)
Ambient temperature: 0-45°C
Room Temperature: 5-40°C
Floor Temperature Limit: 20-50°C
On/Off Differential: $\pm 0.5^{\circ}\text{C}$
Storage temperature: -10-50°C
IP Class: IP21
Dimensions: 118x74x39mm (in-wall depth: 28mm)
Display: 2.5 inch LED Screen - capacitive touch
Approvals: AS/NZS 60669.1:2020 + A1:2022 AS 60669.2.1:2020
Thermostat Weight: 84g
