Recommended for

Livings Rooms, Kitchens, Garages & Motorhomes

The Orca™ Intelligent Wireless Interlink Technology allows multiple units to be wirelessly interlinked to protect the whole household. When one alarm activates, the entire network activates. These alarms are the future of smoke, fire and carbon monoxide detection. In larger residences, they provide peace of mind knowing that a small fire emerging away from where people are sleeping will still provide an immediate close proximity warning allowing action to be taken before the fire gets out of control.

- Electrochemical sensor
- Ideal for living rooms, kitchens, garages and motorhomes
- Test button
- Hush feature
- Long-life built-in lithium battery
- Extra loud warning tone
